Osun State University, Oke baale, Osogbo, Osogbo, Nigeria

About

Highly accomplished Full-Stack Developer with 5 years of experience, specializing in designing, developing, and deploying scalable web applications. Expert in modern JavaScript frameworks (React, Vue, Angular), server-side programming (Node.js, Python), and robust database management. Proven ability to deliver high-quality, real-time solutions, as demonstrated by recent development of a full-stack social media platform and an online multiplayer platform, enhancing user experience and driving engagement.

Work Experience

Frontend Developer

Oct 2022 - Nov 2023

Quest Atlantic | Contract

Ibadan, Oyo State, Nigeria

Led frontend development for web applications, focusing on interactive user interfaces and seamless data integration.

- Engineered interactive single-page applications leveraging React.js and Redux for robust state management.
- Collaborated effectively with backend teams to integrate APIs, ensuring seamless data flow and system functionality.
- Implemented responsive design principles, achieving cross-browser compatibility across Chrome, Firefox, Safari, and Edge.
- Developed a reusable component library, deployed across 5 distinct projects, which reduced development time by 30%.
- Utilized modern CSS techniques, including Flexbox and Grid, to craft complex and visually appealing layouts.
- Participated actively in an Agile environment, including daily standups and bi-weekly sprint planning, to deliver projects efficiently.

Education

Software Engineering

Oct 2023

Osun State University

Osogbo, Osun State, Nigeria

Courses

- Data Structures & Algorithms
- Database Systems
- Software Engineering
- Web Development
- Computer Networks

Projects

Jarvis AI

Aug 2025 - Present

A personal AI

Developed an AI-powered personal assistant (Jarvis) as a PWA, with voice/text commands, app automation, live search, and personalized memory using React, APIs, and Supabase.

E-Commerce Platform (BlorbMart)

May 2025 - Present

Developed a comprehensive, full-featured e-commerce platform from concept to deployment, enabling secure transactions and efficient inventory management.

Online Multiplayer Gaming Platform

Aug 2025 - Aug 2025

Developed an online multiplayer platform, focusing on real-time game logic, scalable server architecture, and engaging user experiences using a modern JavaScript stack.

Realtime Social Media Platform

Jul 2025 - Aug 2025

PERSONAL PROJECTS

Architected and developed a full-stack social media platform with real-time functionalities, emphasizing dynamic user interaction and scalable backend services.

Project Submission Platform

Apr 2025 - May 2025

Designed and developed a robust platform for managing developer project submissions, featuring role-based access, community interaction, and performance tracking.

Languages

English

Skills

Frontend Development

- HTML5 • CSS3
- JavaScript (ES6+) • TypeScript
- React.js • Vue.js • Angular
- Next.js • Nuxt.js
- Sass/SCSS • Tailwind CSS
- Bootstrap • Material-UI
- Styled Components • Redux
- Vuex • Context API
- Zustand • Webpack • Vite
- Parcel • Rollup • Jest
- Cypress
- React Testing Library • Vitest

Backend Development

- Node.js • Python • Java
- C • PHP • Firebase
- Express.js • FastAPI
- Django • Spring Boot
- ASP.NET Core • Laravel
- PostgreSQL • MySQL
- MongoDB • Redis • SQLite
- Firestore • Mongoose
- TypeORM • RESTful APIs
- GraphQL • WebSocket
- JWT • OAuth 2.0
- Passport.js • Auth0
- Fire Auth • Socket.IO

DevOps & Tools

- AWS • CI/CD
- GitHub Actions • Docker

Methodologies

- Agile Development
- Problem-Solving
- Collaborative Team Environments
